Lower Your Engine Filtration Costs

For over 40 years, AAF Flanders AmerKleen™ cartridges have set the standard for locomotive engine intake filters. AAF Flanders provides the best combination of performance and value in the industry. The standard 92-day cartridge has such superior performance that a number of Class 1 railroads extend the scheduled changeout period beyond the standard 92 days.

In addition to our AmerKleen cartridges, AAF Flanders also offers a complete line of AmerKleen cartridge housings for new installations, overhauls, upgrades, or retrofits from alternate filter systems. AAF Flanders offers custom products and services to meet the specific needs of each installation, and application assistance.

Contact your local AAF Flanders representative to learn more about our clean air solutions for passengers and equipment.
