Lower Your Engine Filtration Costs

For over 40 years, AAF Flanders AmerKleen™ cartridges have set the standard for locomotive engine intake filters. AAF Flanders provides the best combination of performance and value in the industry. The standard 92-day cartridge has such superior performance that a number of Class 1 railroads extend the scheduled changeout period beyond the standard 92 days.

In addition to our AmerKleen cartridges, AAF Flanders also offers a complete line of AmerKleen cartridge housings for new installations, overhauls, upgrades, or retrofits from alternate filter systems. AAF Flanders offers custom products and services to meet the specific needs of each installation, and application assistance.

Contact your local AAF Flanders representative to learn more about our clean air solutions for passengers and equipment.

Companies listed alphabetically in this section represent North American railroads, including line-haul railroads and switching and terminal companies. All railroads shown are common carriers engaged in general freight business. Miles of track represents miles of road operated, including main line, branches, and sidings. The gauge is standard 4 ft., 8-1/2 in. unless otherwise stated.

Generally, each list of officials is arranged in the following order: Executive, Financial, and Legal; Accounting; Traffic and Claim; Operating, TOFC; Purchasing and Stores; Mechanical; Engineering, Bridges, and Roadway; and Communications and Signals. Refer to page E-1 for an alphabetical index of officials and page C-2 for title abbreviations. For additional information, see *The Official Railway Guide/Freight Service Edition*.

BALTIMORE & OHIO RAILROAD MUSEUM

The Baltimore & Ohio Railroad Museum, Inc., an affiliate of the Smithsonian Institution, holds the most important and comprehensive collection of American railroad artifacts in the world. The Museum encompasses a National Historic Landmark site in downtown Baltimore City, Maryland. The museum campus, spread across a 40-acre historic site, showcases its world-class collection of locomotives, rolling stock, artifacts and industrial buildings. Universally recognized as the birthplace of American railroading, the first mile of commercial railroad right of way is preserved here. For more information, visit www.borail.org.

BC FOREST DISCOVERY CENTRE

The BC Forest Discovery Centre is a 40 ha (100 ac) open air museum. With 2.5 km of narrow gauge rail line, visitors explore the site on one of the Centre's gas or steam locomotives. Large logging equipment, vintage industrial vehicles and historical buildings make up only a portion of the Centre's unique collection of forestry-related artifacts. A mature second growth forest, trails through Somenos Wetlands and a picnic site on Somenos Lake make this a must see attraction for Southern Vancouver Island. Easy to find, located just north of Duncan on the Trans Canada Highway.
